

MITALI SONKIYA

Front-End Developer

Front-End Developer with a BCA from JECRC University (2023-2026), a web development internship and 4 live projects deployed on Vercel, Netlify and GitHub Pages. Built a multi-page website, a task manager, an expense-splitting app and a React showcase site using HTML5, CSS3, JavaScript ES6, Bootstrap and React. Seeking a Front-End Developer internship or fresher role at a product company or startup.

WORK EXPERIENCE

Fineoutput Technologies Pvt Ltd, Jaipur

WEB DEVELOPMENT AND DESIGN INTERN

- Learned Bootstrap by building 2-3 sample websites, then designed and developed Chefer, a multi-page responsive website, using HTML, CSS and Bootstrap.
- Implemented the Bootstrap grid and components for a layout that adapts to screen size; tested on 3 screen sizes: desktop full screen, desktop half screen and mobile.
- Achieved Lighthouse Performance scores between 85 and 90+ when tested from 6 countries.
- Deployed the site live on GitHub Pages: mitalisonkiya.github.io/Chefer

EDUCATION

2023 - 2026 | CGPA: 7.59
JECRC University, Jaipur
BACHELOR OF COMPUTER APPLICATIONS
Completed; degree certificate awaited

2023 | 71.8%
St. Xavier's Sr. Sec. School, Jaipur
CLASS 12

PROJECTS

<https://fair-share-puce.vercel.app/>

FAIRSHARE, EXPENSE-SPLITTING WEB APP | JAVASCRIPT | LIVE ON VERCEL

- Built and deployed a Splitwise-style web app where users create groups for trips, homes or shared bills, record who paid, and split costs equally among members.
- Implemented the app logic in JavaScript, including a Settle Up feature that reduces many debts to the fewest direct payments; used AI assistance for the logic code and tested and debugged it myself.
- Added sign-in and sign-up screens and local browser storage so data stays on the user's device.

<https://mino-folio.netlify.app/>

MINO, TO-DO LIST AND FOCUS TIMER | HTML, CSS, JAVASCRIPT

- Developed a task manager with priorities, categories, due dates and filters, deployed live on Netlify.
- Added a Pomodoro focus timer, daily notes and a weekly activity view, and saved tasks on the user's device so data persists between visits.

<https://radhe-radhe-tau.vercel.app/>

RADHE RADHE, GEMSTONE AND JEWELLERY SHOWCASE | REACT, BOOTSTRAP, CSS ANIMATIONS

- Built a showcase site for a jewellery business using Google Antigravity (AI coding tool), where each gemstone appears on scroll and the page colour theme changes with it.
- Planned the concept, colour theme and scroll animation for each gemstone, directed the AI through the build, then tested and deployed the site on Vercel.
- Replaced an initial spiral animation with a lighter one after it slowed the site, reaching Lighthouse Performance scores of 90+ on desktop and 80+ on mobile.

SKILLS

Languages

HTML5, CSS3, JavaScript (ES6)

Frameworks and libraries

React (basic), Bootstrap

Tools and deployment

GitHub, Vercel, Netlify, GitHub Pages, AI coding assistants such as Google Antigravity (code reviewed, tested and debugged by me)

Design and UX

Responsive web design, CSS animations

LANGUAGES

Hindi, English
